SCREWCON 3
PROFESSIONAL PROCESSING SECTION CONFIGURATION

ScrewCon 3 is a highly flexible and extremely user-friendly software for configuring twin-screw extruder processing sections on a PC. It provides schematic representation of housing and screw elements as well as visualization and documentation of the process section set-up.

ScrewCon3 – Uncompromising user friendliness when configuring processing sections.
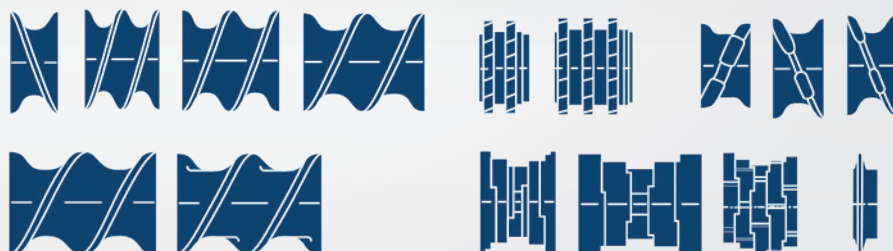

Customer benefits

– Uncompromising user-friendliness owing to the intuitive operator interface for the preparation of screw drawings
– Simple and rapid operation using the click-and-drop function to draw housing and screw elements and by shifting and adding elements
– Customized portfolio of screw and housing elements for the preparation of tailored drawings
– Exclusion of assembly errors by true-to-scale display of the total length of housing and screw elements and the length difference. In addition, both screws (right and left) can be displayed simultaneously.
– Guidance of the installation staff by numerous texts that complement the housing and screw set-up

YOUR BENEFITS:

- On-screen design of precisely tailored screw and barrel housing combinations
- Rapid and precise configuration of customized screw set-ups
- Complete stock overview

Configuring twin-screw extruder processing sections in next to no time.

- Optimum work preparation thanks to a printing function with various configuration options (jpg / bmp image files and parts lists) as well by an integrated inventory management
- Well-aimed after-sales support by clear identification of the elements based on continuous numbering
- Optimum tool to enhance process-engineering design and development

The license includes:
- Three USB licenses (for installation on three independent end devices) with one year runtime
- ScrewCon 3 support: **screwcon-hotline@ kraussmaffei.com**

Price of basic software with machine purchase* incl. 1 machine	License for each additional machine outside the warranty period**	License renewal basic software ***
Free of charge during the warranty period. Afterwards 295 € per machine and year	295 € per year	Automatic renewal if not cancelled 3 months before license end
