RANGE FOR GEARBOXES*

Krauss Maffei

Pioneering Plastics

FAST. GOOD AS NEW. SOLUTION-ORIENTED. KRAUSSMAFFEI'S REPLACEMENT RANGE FOR GEARBOXES.

All KraussMaffei extrusion machines and systems are characterized by reliability and proven value. Their outstanding product quality over a long life cycle sets them apart from the rest. Nevertheless, they too suffer from natural wear; if unnoticed, this could result in the production system breaking down and incurring unnecessary additional costs. KraussMaffei's replacement range offers rapid assistance in such a case to minimize possible unwanted downtime.

Your benefits

- Delivery of the replacement gearbox within one to three weeks, depending on availability.
- Highly qualified installation specialists ensure that the gearbox functions flawlessly.
- Significant cost savings compared to purchasing a new gearbox.
- Take-back of your worn-out gearbox after an individual, joint evaluation.
- Reduction of your storage costs: Due to the fast availability of the replacement gearbox, you no longer need to stock your own spare gearboxes at the production location.

A replacement gearbox in just a few steps

1. Initial situation

Your machine's gearbox is damaged, or it makes sense to replace the gearbox based on economic considerations.

2. Gearbox replacement

- We replace your gearbox with a completely overhauled replacement gearbox.
- If required, you will receive support from one of our highly qualified installation specialists so that the gearbox is ready to use.
- We take back your worn-out gearbox.
