

Dr. Alexandra Coffey is responsible for Sustainability at KraussMaffei

- Many years of experience in implementing sustainability issues
- Group sets itself ambitious targets
- KraussMaffei aims to achieve corporate carbon footprint of zero by 2030

(Munich, January 11, 2023) Dr. Alexandra Coffey was appointed Senior Sustainability Manager of the KraussMaffei Group on January 1, 2023. She reports directly to the Management Board. Coffey comes from the Schörghuber Group, where she was also responsible for sustainability. Her thematic focus areas are CO₂, single-use plastics, the environment and supply chain sourcing obligations. With the creation of this new position, KraussMaffei is reinforcing its strategy of becoming a completely sustainable company in the medium and long term. By 2030, the Group wants to achieve a corporate carbon footprint of zero and operate all plants worldwide in a CO₂-neutral manner.

"Striving for greater sustainability is an absolute must for us as a leading manufacturer of machinery and equipment for the production and processing of plastics and rubber. We are pursuing ambitious goals in this regard and are positioning ourselves accordingly for the future. We are therefore particularly pleased to have gained a highly experienced sustainability expert in Dr. Alexandra Coffey for an increasingly complex regulatory environment," says KraussMaffei Board Member Jörg Bremer.

Prior to her position as Senior Manager Sustainability at the Schörghuber Group, Coffey was Director Corporate Responsibility at Sky Germany for six years. Her task will now be to further develop and implement KraussMaffei's global sustainability strategy. The company has set itself the goal of being one of the best machine and system manufacturers for the plastics industry in the

areas of sustainability and cost-effectiveness by 2025. In addition, KraussMaffei has set itself the following goals for the coming years:

- By 2023, KraussMaffei will achieve the "Silver" rating level of the world's most reliable sustainability rating from EcoVadis.
- By 2026, KraussMaffei will reach the EcoVadis "Gold" rating level.
- By 2030, KraussMaffei achieves a corporate carbon footprint of zero - all plants worldwide are operated CO₂-neutrally.
- By 2035, KraussMaffei will achieve a Product Carbon Footprint of zero - all machines will be manufactured in a CO₂-neutral manner.

Dr. Coffey says of her new responsibilities: "There are standards that KraussMaffei must meet as a global company and there are self-imposed sustainability goals that the company wants to meet in addition. I am very much looking forward to my new task in an exciting environment. My incentive is to make a contribution to achieving our sustainability goals and to have responsibility in mind for both today's and future generations. The KraussMaffei credo forms the basis for my work: successful business means sustainable business."

KraussMaffei – Pioneering Plastics

KraussMaffei is among the world's leading manufacturers of machinery and systems for the production and processing of plastics and rubber. Our brand stands for cutting-edge technologies – for more than 180 years. Our range of services covers all areas of injection molding machinery, extrusion technology and reaction process machinery. This gives KraussMaffei a unique selling point in the industry. With the high innovative power of our standardized and individual product, process, digital and service solutions, we can guarantee customers sustained additional value over the entire value-adding chain. Our range of products and services allow us to serve customers in many sectors including the automotive, packaging, medical and construction industries, as well as manufacturers of electrical and electronic products and household appliances. KraussMaffei employs around 4.700 people all over the world. With more than 30 subsidiaries and over 10 production plants, as well as about 570 commercial and service partners, we are represented internationally close to our customers. Since its foundation in 1838, the company's headquarters have been in Munich.

In April 2016, the Chinese state-owned company China National Chemical Corp. Ltd. ("ChemChina"), one of the leading chemical companies in China, became the majority shareholder of KraussMaffei Group. At the end of 2018, ChemChina listed the KraussMaffei Group as KraussMaffei Company Ltd. in Shanghai. The listing opened up access to the Chinese capital market and local investors.
