

## Successful move: KraussMaffei Automation relocates to KraussMaffei headquarters

- More than 150 KraussMaffei Automation (KMA) employees, production and warehouse moved to new KraussMaffei headquarters in Parsdorf
- Move completed in just a few weeks with no interruption to operations
- Shared location enables faster, more efficient production

**(Parsdorf/Germany, May 22, 2024) KraussMaffei Automation (KMA) has a new address: After 38 years at the Schwaig site (Germany), more than 150 KraussMaffei Automation employees left their previous location in the first quarter of 2024 and moved to the KraussMaffei headquarters in Parsdorf.**

All office and shop-floor jobs were relocated, along with all items of stock. The KMA technical center was also integrated into the injection molding technical center at the same location. In just a few weeks, the entire production, warehouse and office workstations were successfully relocated to KraussMaffei's Parsdorf headquarters, thanks to the great efforts of all the departments involved.

Martin Strasser, Managing Director of KraussMaffei Automation, says: "We are delighted to now be physically part of KraussMaffei Technologies.

Working at the same location means shorter distances and faster coordination, which is a great advantage for us. We already see enormous potential here in the short time we have been at the new site."

Manuel von Varchmin, Vice President Sales Injection Molding Technology, adds: "The benefits are not just of an internal nature. Everything will be even more efficient for our customers: We now have one warehouse for shipping parts, whether for an injection molding machine or automation.

The coordination, processing and pre-acceptance of complete production systems will also be simpler and faster thanks to a shared location."

## **Relocation during ongoing production**

"Despite the move over several weeks, we didn't have to interrupt production," explains Project Manager Christopher Scherm, adding: "It was important to us not to have to postpone any delivery dates for the systems to our customers due to the additional workload, and we succeeded in doing so." The Schwaig site was dismantled in recent months and returned to the landlord at the end of April.

"What has always belonged together is growing together - a win-win situation for everyone," concludes von Varchmin.

the entire value-adding chain. Our range of products and services allow us to serve customers in many sectors including the automotive, packaging, medical and construction industries, as well as manufacturers of electrical and electronic products and household appliances. KraussMaffei employs around 4.700 people all over the world. With more than 30 subsidiaries and over 10 production plants, as well as about 570 commercial and service partners, we are represented internationally close to our customers. The company was founded in 1838 in Munich.

In April 2016, China National Chemical Corporation Ltd. ("ChemChina") became the majority shareholder of KraussMaffei Group. In December 2018, ChemChina listed the KraussMaffei Group as KraussMaffei Company Limited in Shanghai. The listing opened up access to the Chinese capital market and local investors. Now ChemChina is part of Sinochem Holdings Corporation Ltd., one of the world's leading chemical conglomerates with over 220,000 employees.
